Barrel of Alcohol Exploded
Dealing Death to Two Men
and Injuring Others.

THE FLUID SMUGGLED ON BOARD.

Corp. Yerkes Fell Into the Burning
Mass and Was Slowly
Roasted to Death.

The Executive Officer Has Ordered a
Thorough Search of the Ship and
the Yard—One Man Placed
Under Arrest.

Norfolk, Va., Sept. 14.—Lieut. Commander Van Doser, executive officer of the cruiser Olympia, Sunday gave out an official statement of the facts attending the explosion of a barrel of alcohol on the cruiser's deck Saturday night, causing the death of Marine Corporal J. S. Yerkes, of Philadelphia, and Apprentice Seifert, and the serious injury of Third Class Master-at-Arms Caster and Apprentice Shavey, in addition to the burning of the cruiser's forward awnings and awning supports. The explosion resulted indirectly from the smuggling of alcohol into the navy yard by members of the cruiser's crew.

The statement of Lieut. Commander Van Doser says: "The entire crew of the Olympia were returning aboard after 48 hours' shore liberty when a five-gallon water breaker full of alcohol was discovered in the forward turret. The executive officer at once ordered a thorough search of the ship and the yard in her vicinity to find any other spirits that might have been smuggled. As the cruiser is in dry-dock all her small boats are lined in rows along the wharf near the dry-dock. Between two of these boats two men were discovered. One fled and escaped in the darkness. The other was placed under arrest. Where the men were hiding was found a full barrel of alcohol which had been broached. It was by orders carried aboard the Olympia to be emptied into the alcohol tank on the aft deck. This tank being full, the barrel was carried forward by Corp. Yerkes, Seifert, Spavey and Caster. In the meantime the crew was called to quarters and every man accounted for. While the men were in line answering the roll the detachment with the barrel began pouring its contents into a tank on the port side of the forward turret. They had scarcely begun when, in a manner yet to be ascertained, the fumes of the spirits became ignited and exploded with terrific force. Both ends of the barrel were blown out, followed by a torrent of burning alcohol, that spread in a flood of flame over the forward main deck. Yerkes was struck in the head by a stave from the barrel and fell into the burning mass. He was roasted to death. The other three men were also struck by flying fragments of the barrel, but were knocked away from the center of the fire and thus escaped fatal injury."

EXPLOSION IN A RAILWAY YARD.

Two Men Killed, Two Injured, One of
Whom May Die.

Bay City, Mich., Sept. 14.—Clarence D. Hopper and Roy Boucher, switchmen of the Michigan Central railroad, were instantly killed by an explosion of dynamite in a car in the yards at West Bay City Sunday. Robert Rohlin, engineer; William Noble, fireman, and John Cradle, conductor, were injured, the latter so severely that he may die. All of the trainmen were residents of this city. The explosion occurred as a switch engine was making up a train. The engine backed down upon several cars, the first containing a thousand pounds of dynamite, a consignment of Lee-Metford rifles and a quantity of reduced charge shells for indoor rifle practice, and it is said the force with which it struck the explosive laden car exploded the dynamite. A big hole was torn in the ground by the explosion a score of freight cars, many loaded, were demolished, and nearly 300 houses in the vicinity suffered broken windows and several were so badly wrecked as to be uninhabitable. The shock was felt in Essexville, three miles from the scene.

DEATH OF COL. R. T. JACOB.

He Was a Picturesque Figure During
the Civil War.

Louisville, Ky., Sept. 14.—Col. R. T. Jacob, a picturesque figure during the civil war, died at his home in this city Sunday. Col. Jacob was 78 years old, and was widely known as the man who saved Kentucky from secession and also as the captor of Gen. John Morgan.

Col. Jacob's career began with a trip across the plains in 1845. He crossed in time to join Fremont's command for service during the Mexican war. Returning to Kentucky he was elected to the legislature as a democrat. The secession question came before the legislature and Col. Jacob created surprise by refusing to vote with the Breckinridge party, his vote giving a plurality of one for the unionists against secession. When active hostilities opened Col. Jacob organized the 9th Kentucky (union) cavalry. He participated in the smashing of Morgan's raid, and it was to Col. Jacob and his command that the confederate leader and a number of his followers surrendered. Near the close of the war Col. Jacob became lieutenant governor of Kentucky.

THE FAMOUS METEORITE.

Suit Entered in the Circuit Court For
its Possession.

Lexington, Ky., Sept. 14.—Suit has been instituted in the Bath county circuit court by the heirs of F. M. Ewing to recover from T. J. Pergam the famous 300-pound meteorite which was seen from Northern Ohio to New Orleans on November 15, last, and which fell on the land of the Ewing estate. J. Hugh Pergam discovered the meteorite while hunting and he dug it up.

Similar suits have been tried in the United States in the last few years, the court deciding the meteorites to be the property of the landowner, while a like suit in France resulted in the aeroile becoming the property of the one finding it.

South Florida Swept by Strongest Hurricane Ever Known in That Section.

THE ACCOUNTS ARE INCOMPLETE.

At Jupiter the Wind Blew 75 Miles an Hour and the Rain Fell in Torrents.

The Telegraph Lines Leading From Tampa in All Directions Are Down and the City is in Total Darkness.

Jacksonville, Fla., Sept. 14.—Beginning Friday morning on the east coast and Saturday morning on the west and lasting 24 hours, South Florida has been swept by the strongest hurricane known in that part of the state. The wires went down at the beginning and railroad service was delayed. On that account no details reached here until Sunday. Even now they are incomplete.

At Miami the wind attained a velocity of 65 miles an hour. The car shed of the East Coast railroad was lifted from its foundations, clear of the cars that were under it, and demolished. Several small boats were sunk in the bay. Passengers on the East Coast train which arrived Sunday night report that they saw many wrecks along the shore from Miami to Hoben sound. There is one four-masted and one three-masted schooner and several smaller vessels. Their names are not known. A Standard Oil Co. steamer with two barges is on the beach near Boynton. The crew of 15 men was saved. Bodies of two unknown white men drifted on the beach near Boynton. At Stuart 15 acres of pineapple sheds were blown down. At Jupiter the wind blew 75 miles an hour with the rain falling in torrents.

Taking a day in crossing the peninsula the storm struck Tampa Saturday morning soon after attaining a velocity of 70 miles an hour and raged all day. The roofs of the Almeria and DeSoto hotels were blown off. Several cigar factories were badly damaged at Ybor City and several buildings were unroofed. In Tampa the Hampton block was unroofed and six small dwellings were blown down. No loss of life is reported. The streets are a tangle of wires. Street lines made no effort to run cars. The wires leading from Tampa in all directions are down and the city is in total darkness.

Other places on the west coast and in the interior have not been heard from and it is feared that when reports come in the damage will be vastly increased. The orange and grape fruit crops have been greatly injured.

The wires west of Madison went down at 9 o'clock Sunday night indicating that the storm is now raging in Middle Florida.

Mr. Simmons was a quiet man, about 75 years old. The cause of the killing is unknown. A Negro of the name of Daniels has been arrested as the slayer. Another account from Pollocksville says that Mr. Simmons was killed by a trespasser who was squirrel hunting on his land and whom Mr. Simmons sent after when he heard the shooting.

ILLEGAL COINAGE.

Convicts in Eastern Pennsylvania Penitentiary Counterfeiting Minor Silver Pieces.

DARING SCHEME NIPPED IN BUD.

There Are Also Gross Irregularities in the Cigar Department of the Big Prison Reported.

Pending investigation the Overseer of the Department Was Temporarily Relieved From Duty—Captain Placed In Charge.

Philadelphia, Sept. 14.—Following closely upon the exposure of gross irregularities in the cigar department of the eastern state penitentiary came the public announcement Sunday night that the illegal coinage of minor silver pieces has been carried on by convicts in the big institution. No details of the counterfeiting scheme can be learned from any of the officials connected with the prison or from the government officers that have been assigned to the case. The fact that such a daring scheme had been carried on in the penitentiary was made public by George Vaux, Jr., one of the prison inspectors, who summoned newspaper men to his home and voluntarily made the disclosure.

He gave out a brief statement which is as follows: "Dr. W. D. Robinson and Mr. Vaux, Jr., who are at present the visiting inspectors on duty at the eastern penitentiary, made the statement that there has come to their official knowledge that within a short time an attempt has been made by certain convicts now confined in the penitentiary to manufacture counterfeit silver coins. But a few pieces were made and a number of these have come into the possession of the inspectors together with the metals and chemicals used, the attempt thus being nipped in the bud. The evidence in the case is not yet complete but all that has been secured has been submitted to the United States authorities."

Mr. Vaux refused absolutely to give any more details than contained in his statement. From other sources, however, it was learned that dimes, quarters and half dollars were the coins manufactured. The discovery was made several days ago and United States secret service officials were immediately called in. Their investigation, it is learned, is still in progress, their principal object being to learn whether there was collusion between the convicts and employees of the institution.

It is believed the discovery of counterfeiting in the prison was the result of the investigation now being carried on in the place as a result of the irregularities in the cigar department. The irregularities became public matter last week, and pending an investigation Warden Daniel W. Bussinger and the overseer of the cigar department were temporarily relieved from duty and the penitentiary placed in charge of Rev. Joseph Welch, the chaplain. It is alleged that thousands of cigars made by convicts are unaccounted for, that thousands of them did not contain the internal revenue stamps and that in many instances the law requiring prison made cigars to be stamped "Convict made" was ignored. How long this has been carried on is yet to be learned. The government of the penitentiary is vested in a board of five inspectors appointed by the governor who serve without salary. This board is now making an inspection of each branch of the institution and has employed an expert accountant to go over the books. In addition to this the internal revenue officers are carrying on a separate investigation.

Dr. William D. Robinson, one of the inspectors, in speaking of the affair, said that the inspectors have not found anything that militates against the personal integrity and ability of the warden, but had found abundant evidence that the old methods so long in vogue are faulty and antiquated. Warden Bussinger has been permitted to engage an accountant to protect his interests in the matter of his accounts.

A mass meeting of the Democrats of Mason County is called for Monday, Sept. 14th, at 1:30 p. m. at the court house, Maysville, to select delegates to a convention at Mt. Sterling Sept. 21st, to nominate a candidate for Railroad Commissioner.

HERE'S bad news for investors in the "water" and "wind" concerns given corporate existence in recent years. The corporation bubble in New Jersey has burst, says a dispatch, leaving almost nothing to show for forty-five corporations that a year ago paid taxes to the State on a capitalization of over \$80,000,000. Since January 1, of this year, two score and five concerns have been placed in the hands of receivers, and nearly every week the list is added to. So far as shown in the figures presented to the courts, the liabilities of the forty-five concerns are nearly fourteen times the assets.

A GREAT CROP.

Two Hundred and Forty Acres of Navy Beans Now Being Harvested.

[Winchester Democrat.] For several years Col. H. P. Thomson, of this county, has been experimenting with the cultivation of navy beans, and the results were so satisfactory that last year he put in a large acreage, from which he harvested an average yield of thirty bushels to the acre, and sold at a profitable price.

This year he put in over two hundred and forty acres, which is now being harvested by specially constructed reapers. Owing to the early and continued drought of the past summer the yield was cut short, but Col. Thomson thinks that the crop will average twenty bushels. Even the decreased yield will guarantee a handsome profit, as the crop is planted and harvested in four and one-half months, and with the aid of special machinery for cutting and threshing out the crop, it requires less labor than almost any crop that can be grown.

For many years Col. Thomson was the largest grower of tobacco in the county, but becoming disatisfied with the unsatisfactory price that prevailed for several years, coupled with the continued and incessant labor that it required to handle the crop, he concluded to put his efforts to more diversified crops, and believes that he has solved the problem in the cultivation of navy beans. He certainly has proved that it pays handsomely, and that the land remains in much better shape.

HAGER CONFIDENT.

State Chairman Places Beckham's Majority at Not Less Than 20,000.

Supporters of Opposition in Former Campaign Now for the Ticket—Belknap Voted For Negro.

[Enquirer.]

Judge S. W. Hager, Democratic nominee for Auditor of State of Kentucky and Chairman of the Democratic State Campaign Committee, was at the Hotel Honing Flat, and during a discussion of Kentucky politics he made statements which, if they prove correct, will place Kentucky in the Democratic column for many years to come.

During his conversation he said: "As Chairman of the Democratic Campaign Committee I think I have reasons to state that the State will go Democratic this fall by a majority of not less than 20,000, and it may reach 30,000. This is a pretty broad statement to make, but I have considered everything and can easily give my reasons for making such a statement.

"In the first place Governor Beckham is popular with the people. He is not one of these men who rush around to country fairs and shake the hand of a few men, brush them aside and rush to some other town. On the contrary, he is a man who is one of the people, and is not afraid or ashamed to talk to any man in any walk of life. His trip through the Eleventh Congressional district has easily proved that he is a man capable of making friends. No Democrat ever visited that Republican district and received such an ovation as has Governor Beckham. He has gone to towns nearly fifty miles from a railroad and hundreds of people from surrounding counties have congregated to meet him. The Campaign Committee proposes to keep him on the stump until the campaign closes, and before the end he will have made a speech in nearly every county in the State.

"As an indication of how the party is united I will cite one instance of what the men who supported the Brown ticket in 1890 are doing. Just a few days ago I received a letter from Hon. Lawrence Tanner, of Paducah, who was on the Brown ticket for Attorney General, in which he asked to be assigned to speaking dates to help the State ticket. The committee has had letters from other men who were behind the Brown movement four years ago, stating that they proposed to support the ticket and offered their services in any way possible.

"John K. Hendrick, who opposed Governor Beckham for the nomination until a few days before the primary, is out for the ticket, and at Smithland last Monday he made a great Democratic speech. Men from every section of the State who opposed Governor Beckham for the nomination have pledged their support to the ticket. We will carry the city of Louisville by a majority ranging from 4,000 to 8,000, and we will carry every district in the State except the Eleventh, and I firmly believe Governor Beckham will cut down the Republican majority there. Belknap, the Republican nominee, does not seem to be able to make friends with the great mass of the people, and

the fact that he voted for a negro in 1883 for Register of the Land Office will hurt him a great deal in Eastern Kentucky, where he hopes to poll his strongest vote. It is on record in the office of the County Clerk of Jefferson County that when Cecil, of Eastern Kentucky, was candidate for Register of the Land Office Belknap voted for the negro Asbury, his opponent. This has become known, and Cecil's friends are against him. This one mistake of his will cost him and the Republican ticket a great many votes in Eastern Kentucky and will do him harm in Western Kentucky, for the simple reason the people of Kentucky have little use for the negro and will oppose any man who votes to put him in power.

UNION IS SIGHT.

Moderator Coyle Believes the Twelve Different Presbyterian Churches Will Be One in Near Future.

DENVER, Sept. 11.—The Rev. R. F. Coyle, Moderator of the General Assembly of the Presbyterian Church, who has just returned to his home in this city from a lecture tour in the East, believes that the time is not far distant when the twelve different Presbyterian churches in the United States will become one. This probability, he says, is due to the reconstruction of the creed of his denomination, which took place last May.

Calvanistic and Armenian lines, which have so long kept his and the Cumberland Presbyterian churches separated, have now, he says, been effaced, and at present no distinctions other than ceremonial separate the two great religious orders that began as one in the days of Cromwell.

Neddie Connor, Dr. Hord's promising trotter, suddenly went lame a few months ago when so much was expected of the horse in the Grand Circuit trots. Sunday, Dr. Hord discovered the cause of the trouble. A hyperdermic needle was found in the lame foot. It is thought some follower of the turf deliberately did this to get the horse out of the way.

BARKLEY'S

MR. CHARLES PHISTER.

One of Maysville's Old and Well Known Citizens Passed Away Sunday at Chicago.

The serious illness of the venerable Charles Phister was mentioned in Saturday's issue of the BULLETIN.

Sunday Judge Hutchins received a telegram announcing Mr. Phister's death. The end came at 11:15 Sunday morning at the home of his son, in Chicago.

Mr. Phister had been gradually failing for several years as a result of the infirmities of age, his decline having been more noticeable the past twelve months. He fully realized his condition, and before leaving a few months ago for Chicago stated to friends that he never expected to return alive to his old Kentucky home. His death was the result of general debility, caused by the infirmities of old age.

Mr. Phister was a son of the late Conard Phister, and was born at the old Phister home on Second street, west of Short. He was in his eighty-fifth year. His wife, who was Margaret J. Hutchins, a sister of Judge Hutchins, survives, with one son, Walter B., of Chicago. One son and two daughters preceded him to the grave. He leaves one sister, Mrs. Ralston, of Forest avenue, and two half brothers, Wharfmaster C. M. Phister, of this city, and Mr. Chambers Phister, of Newport. A peculiar circumstance in connection with Mr. Phister's family is that he and the three children who have passed away all died away from Maysville.

The remains, accompanied by his wife and son, will arrive here to-day and the funeral will take place at 2:30 o'clock Tuesday afternoon at the M. E. Church, Third street, of which he was one of the oldest members. Rev. Dr. Hanford will probably assist at the funeral service.

Interment in the Maysville cemetery.

It is said the Columbus and Ohio River Railroad Company's car shops will be located at Ripley. They will give employment to 200 hands. The locomotives and cars for the new line have been purchased. They are of the most modern construction; the passenger cars especially are of the very latest design. Work on the road from Ripley to Georgetown is now being rushed and forty additional teams were put to work last week. Altogether, there are near 600 men at work and 100 teams. The steel is laid from Georgetown to Straight Creek—four miles.

The examining trial of the five women arrested Friday on charge of stealing coal from C. and O. cars near corner of Short and Front streets came off Saturday before Judge Whitaker. Rena Gilbert, Amanda Howe and Dolly Dulin were discharged, and Mary Leonard and Anna Nevill were held in sum of \$50 each to the Circuit Court. It was in evidence that about forty bushels of coal was thrown off the cars by the women, while the train was at the station. A witness testified he saw eight or ten women on the car throwing off coal, but it was a difficult matter to make out a case, as the defendants all swore positively that they were innocent. The C. and O. officials are determined to break up this thieving.

With the advent of cooler weather you naturally begin to think about a fall suit, also a garment that is almost indispensable in our climate, viz: a Gravenette or medium-weight Overcoat. The youngsters starting to school will want a new suit. We are better than ever prepared to meet your wants. Useless to speak of quality, the "best" is the only kind you buy of us. After quality, the next thing you are interested in is the price. Quoting prices in the papers affords little satisfaction to the intelligent buyer. You want to see the goods, "then the price."

Our Stock of Clothing For Men, Boys and Children.....

is so enormous that you would do yourself injustice did you not look us over before you buy your fall clothing. Our Hanan and Douglas fall and winter stock is ready for your inspection. It is doubtless the greatest line of shoes ever shown in Maysville.

By the way the bell will soon ring on straw hats. Our entire line of Stetson Hats are in. Many of them exclusive styles confined to us. Take a glance at them.

THE MARKETS.

Review of Trade in Live Stock and Tobacco at Cincinnati the Past Week.

Cattle.—The market started strong, but weakened under liberal offerings. Best shipping steers at \$9@9.25 are 25c lower, good butcher steers at \$4@4.75 are practically unchanged, good heifers at \$3.50@4 are 10@20c lower, butcher cows at \$2.75@3.85 are about the same as a week ago. Feeders are quiet and steady. At present supplies are liberal and the market a whole is slow and easy.

Hogs.—The market was strongest on Tuesday, when select butchers sold for \$6.20@6.25 and light hogs at \$5@6.35. Since then the supplies have been a little larger than expected, causing an easy feeling, select butchers now selling at \$5.15@5.75 for the bulk are 15@25c higher. At present sheep are steady and lambs strong.

Tobacco.—The burley leaf market was not as satisfactory to shippers as last week, considerable irregularity prevailing, especially on Thursday. Buyers were somewhat disappointed in the quality of the offerings, which did not come up to last week's average, a very large proportion of the breaks being made up of inferior reds and mixed tobaccos of a nondescript character. Color goods of decided merit in lugs and leaf were scarce, although considerable of these types are known to be held by shippers, who are evidently awaiting a higher range in values.

Offerings and reports showed a slight decrease, as compared with last week, due in a measure to the fact that many shippers are now busy cutting and housing the new crop.

Advices from the growing sections in regard to the latter are somewhat conflicting, but most shippers agree that the decreased acreage, as compared with last year, will be fairly well equalized by the weight and body of the new crop.

Use These Spices!

If you have a recipe calling for a certain spice or for mixed spices, it means that the best is needed to produce the desired flavor. The writer of the recipe you use, had in mind only perfect full flavored spices; if you use the ordinary ones, results must be unsatisfactory. We have the better kind, the very choicest the world produces—and this is the kind you should have.

MIXED SPICES

We have the finest lot of these you have ever seen. Blended perfectly. Cost no more than the worthless kind. We wish also to supply your sealing wax, paraffine, corks, curcuma, etc.
